

## GEN. BLISS FEARS RENEWAL OF THE GREAT WAR

### UNDERTAKER U. S. GOVT. READY WITH HIS PALL BEARERS

**Midnight Burial of J. Barleycorn Has Been Arranged.**

By Associated Press Leased Wire  
Washington, Jan. 15.—Prohibition Commissioner Cramer has completed organization of the machinery for the enforcement of constitutional prohibition after the amendment and the enforcement law becomes effective at midnight tomorrow night. Commissioners have been appointed for practically all states as well as for the districts into which the country has been divided for purposes of enforcement of the law.

With the coming into force of the amendment, the export of intoxicating liquors will cease. An enormous amount of whiskey has been sent out of the country within the past few weeks, but large stocks still remain in bonded warehouses and its disposition will be watched closely to prevent legal sales.

Liquor held in warehouses and elsewhere for private account must be moved in homes or other places of residence by the owner before tomorrow midnight. Any remaining in storage will be subject to seizure.

Home brewing of beverages containing more than one half of one per cent of alcohol also will come under the ban.

**"REASONABLE" ENFORCEMENT.**  
By Associated Press Leased Wire  
Chicago, Ill., Jan. 15.—Word was passed out today by Captain Hubert E. Howard, director of federal prohibition in Illinois, that enforcement of the eighteenth Constitutional Amendment, effective at midnight tomorrow night, would be "based upon mutual reasonableness and carried out by reasonable and slow working authorities."

Captain Howard and Major A. V. Dalrymple, general prohibition agent of the Chicago district, announced there would be no "invasion of the home, no raiding of respectable clubs and hotels, and no frisking for hip liquor."

Except where a flagrant violation of the law is shown, federal authorities said warnings would take the place of arrests.

More than 200 federal agents, drilled in a "slouch school" here, will take the field at 8 o'clock tomorrow morning to keep the lid on Illinois, Iowa, Wisconsin, Minnesota and Indiana.

**No Rebate Coming**  
Wholesale liquor dealers and saloon keepers who have paid a tax of \$6.60 per gallon on whiskey will not receive a refund unless congress decides otherwise, Julius F. Smietanka, collector of internal revenue, announced today. Scores of saloonkeepers have applied for a refund on the ground that they intend to use the liquors for non-beverage purposes on which the tax is \$2.20 per gallon.

### DEMOCRATS WERE UNABLE TO CHOOSE LEADER IN SENATE

By Associated Press Leased Wire  
Washington, D. C., Jan. 15.—Democratic senators in caucus today failed to elect a leader. A deadlock on a tie vote developed between Senators Hitchcock, of Nebraska, and Underwood, Alabama, and the caucus adjourned subject to the call of the two candidates.

Two ballots were taken and the count on each were 19 to 19, with Senator Smith of Georgia withholding his vote.

The next caucus will be held after Secretary Glass, appointed senator from Virginia, takes his seat. He is understood to favor Underwood. The caucus voted by a majority of one to invite Mr. Glass to today's meeting or allow his vote to be cast, but Senator Underwood decided not to press the matter.

**Treaty Not Involved.**  
Senator Underwood stated that Senator Hitchcock's leadership of the minority in the peace treaty controversy was not involved and that the Nebraska senator would continue to have his loyal support on treaty questions.

The vote of Senator Smith would have broken the deadlock today, but the agreement to postpone final action until Secretary Glass was seated was said to have been reached without objection.

The strike was broken. Professional blood donors were on the job today at the old wage.

### REDS TAKE CAPITAL OF DENIKINE'S GOVT. AND 10,000 TROOPS

**32 Guns, Nine Tanks and Much Baggage Listed Captured.**

By Associated Press Leased Wire  
London, Eng., Jan. 15.—The Bolsheviks have captured Rostov-on-Don, according to a wireless despatch from Moscow.

Ten thousand prisoners, thirty-two guns, nine tanks and an enormous amount of baggage were taken, the statement says.

"Street fighting started in Rostov on January 9 and lasted the whole day," the Soviet communication continues. "The town was cleared on the tenth and the enemy driven back beyond Hataisk Gipro and Akksaishal. The enemy destroyed the small bridges over the Don but the large railway bridge was not damaged. A revolutionary committee has been formed at Rostov."

The Bolsheviks, it was stated in a Moscow wireless message picked up in London, January 10, had taken the town of Nakhichevan and had entered the outskirts of Rostov-on-Don, which was formerly the capital of the government of General Denikine. Rostov is the chief port of the Don river.

### Tell Customers Not to Buy High Priced Suits Urges Chicago Dealer

By Associated Press Leased Wire  
Chicago, Jan. 14.—The statement that high closing prices are due to under production resulting from the 44 hour week in factories was challenged today by Sidney Hillman, president of the Amalgamated Garment Workers of America at the meeting of the National Association of Retail Clothiers.

M. L. Rothschild, a Chicago retailer, told his fellow merchants that it was their duty to "protect customers next fall and tell them not to buy."

"A boycott from the consumer is probably the only solution of the high price problem," he said. "An indifferent suit is going to cost \$75 and an ordinary suit about \$100."

### DEPARTMENT STORE TO OPEN IN COUNTRYMAN BUILDING VERY SOON

**J. C. Penney Co. to Open Big Store in Dixon About April First.**

The I. B. Countryman store building has been leased by the J. C. Penney Company, which conducts a chain of department stores all over America, and will be occupied by a first class department store on or about April 1, this year. The Kennedy Music Company has surrendered its lease on the store room and will move to the opera house block, directly across the street, Feb. 1. Immediately afterwards the work of installing fixtures for the new mercantile enterprise will commence.

S. C. Stanfield, of Muskogee, Okla. has been in Dixon for several days and yesterday he completed the transaction whereby the J. C. Penney Company leases the new Countryman store, one of the largest in this part of the state and originally designed for this particular business, for a period of ten years.

Mr. Stanfield is to be in entire control of the Dixon branch of the business and will move here, with Mrs. Stanfield, to maintain all of their stores on the highest standard and that the Dixon project would be a permanent institution.

The new store will carry lines of dry goods, clothing, shoes, ladies' ready-to-wear and men's furnishings.

The J. C. Penney Company now operates 197 stores, in as many cities, and will this spring install 100 more, making a total of 297 stores.

**Kennedy Plans Fine Store**  
Earl Kennedy, proprietor of the Kennedy Music Store, which will be moved directly across the street from its present location, plans to install new and modern fixtures in his new location and the plans include sound proof booths for the display of machines and records.

### DIXON MAN SEES NO PROSPECT OF CHEAPER CLOTHES

**However \$100 Men's Suits Will Not Be Sold in This City.**

George Boynton of the firm of Boynton-Richards Company, returned home last evening from Chicago where he attended the annual meeting of the National Clothiers Association. This morning he was interviewed by a representative of the Evening Telegraph with reference to the reported high cost of clothing this spring and for the ensuing year.

"There is no indication of cheaper clothing," said Mr. Boynton. "The prices charged for clothing are consistent with the prices that are being charged for other necessities, and clothing will be no cheaper than other necessities. There will be lots of good clothes to be had from \$45 to \$65, and \$60 will be a fair average price for the spring suits. Most people seem to think that clothes prices are high. Measured in the number of dollars it takes to purchase a suit they are. But measured in the prices of things which the producer has to sell or in the wages paid for services performed they are no higher than they were before the war. In many instances, as a matter of fact, they are not so high."

Mr. Boynton gives little credence to reports that a fair grade suit of clothes will cost \$100 and in reply to this, stated that there was not a \$100 suit of clothes in his store.

At the convention in Chicago about a thousand of the leading clothiers and haberdashers of the country were present. It was the general opinion that the price of clothing compared favorably to the high wages paid to the various trades and labor and that there was a very unusual demand for good clothes.

### BERLIN QUIET TODAY BUT DIPLOMATS FEAR FURTHER RIOTS THERE

**Communists Call for Formation of Revolutionary Councils.**

**BULLETIN**  
By Associated Press Leased Wire  
Berlin, Jan. 15.—A communist manifesto issued today urged the immediate election of revolutionary employees' councils in all industrial establishments.

**BERLIN QUIET WEDNESDAY**  
By Associated Press Leased Wire  
London, Jan. 15.—Berlin was quiet Wednesday, according to a wireless dispatch from the German capital. The large factories were working normally and the railway and tram services were not interrupted.

Strong indignation is expressed in every branch of industry at the unscrupulousness of the Independents, the dispatch adds, because the leaders hid behind machine guns while the masses were driven forward to face the guns of the soldiers.

It is announced that the Berlin government will not permit demonstrations on the occasion of the burial of the victims of Tuesday's rioting.

By Associated Press Leased Wire  
London, Eng., Jan. 15.—Fears are expressed in diplomatic despatches that the Berlin imbroglio may spread throughout Germany and even to Vienna through the agency of the Communists, this element using the recent Berlin disorders to inflame the masses by representing those killed as martyrs to the cause of the people.

Thus far no disorders are reported outside of Berlin. The advice in analyzing the upheaval in Berlin, point to its original cause as the dissatisfaction of the Independent Socialists over the failure of the government to provide a method for the establishment of the Workmen's Councils called for by the constitution but give the immediate cause as indignation at the attitude of the government towards strikers. This resulted in the organization of great demonstration in front of the Reichstag building.

The violence that followed, however, is declared to have been due to Communist agents who took advantage of the assemblage and, working on mob psychology, started the riot.

German troops were marched to Leipzig on Tuesday where they occupied the squares and public buildings according to a Berlin despatch today. Machine guns were placed in commanding positions.

Gordon Utley and wife are in Chicago for a few days.

Neither of the occupants were injured, the sleigh being slightly damaged.

### ALL ARGUMENTS IN: COAL BOARD TO CROSS-QUIZ

**Officer of Indiana Operators Calls Miners "Irresponsible."**

By Associated Press Leased Wire  
Washington, D. C., Jan. 15.—With the conclusion of arguments bearing on the situation in the Central Competitive field today the president's commission for settling the bituminous coal strike took under advisement a mass of statistical material submitted by the miners and operators. President Robinson announced that the commission would meet again Monday for the cross examination of witnesses.

Phil H. Pennia, secretary of the Indiana Coal operators told the commission today that collective bargaining without responsibility on both sides was a farce. Contracts between miners and operators had formerly been almost sacred, he said, but now they were not respected generally or locally.

**Miners Irresponsible.**  
"The mine workers are irresponsible as an association," he said. "That is why we shall ask this commission to ask congress in the interest of collective bargaining for legislation that will make associations and people entering into collective bargaining responsible."

Mr. Pennia said that the operators sympathized with the objects of the mine workers in demanding better standards of living but that there was no chance to improve the standards of "the men who won't work three days a week if you pay him enough to live on by working two."

"The base of our entire trouble today lies in not enough production and the 30 hour a week demand is a proposal to try and meet the trouble by adding to the cause of it."

### CITY PHYSICIAN GIVES WARNING AGAINST FLU

Dr. J. B. Warren, city health physician this morning called attention to the spread of the influenza epidemic in certain parts of the country. There are no cases of influenza in Dixon at the present time so far as is known, but 150 cases have been reported in Chicago and others in many nearby cities.

The city health officer desires to call attention to the fact that all cases of influenza must be reported at once to him, as the disease is now a quarantinable one, and it is his ambition to guard against any possible spread of the disease locally. In other cities the disease is reported in a much milder form than two years ago, although one death has already been recorded in Chicago.

### SAYS POLAND IS ONLY POWER THAT CAN PREVENT IT

**Allies and U. S. Must Aid Poles in Withstanding Russ Reds.**

By Associated Press Leased Wire  
Washington, D. C., Jan. 15.—Revival of war in Europe if Poland is unable to withstand the Russian Bolshevik armies is not improbable, Gen. Bliss who was a member of the American peace delegation, today told the house ways and means committee, and recommendations that the United States furnish surplus military supplies to Poland to aid it in repelling the Westward advance of the Bolsheviks have been made to the state department by Secretary Baker.

"Poland is the only bulwark against Bolshevism," said General Bliss, who appeared before the committee to discuss the proposed loan of \$150,000,000 for food relief in Europe.

Military experts are of the "growing opinion" that the "Moscow government will turn toward Poland," General Bliss said, adding that the Russians outnumbered the Poles, were well trained, well equipped and well led while the Poles were "poorly equipped as to everything."

In making this announcement today Mr. Baker interrupted General Tasker H. Bliss, a former member of the supreme military council and the American peace delegation, who had told the house ways and means committee that general revival of war in Europe was not improbable "unless Poland could check the Russian Bolshevik armies."

**Allies Consider Aid.**  
The war secretary also said that the allied governments were considering participation in the movement to aid the Poles. General Bliss told the committee that Russian armies were far better equipped than the Poles who were "the only bulwark against Bolshevism."

Describing Poland as "the possible storm center" in Europe, General Bliss declared that when a whole people are brought to starvation, "they may make war on a neighbor having food and so renew the conflagration that we had hoped had died out."

**Reds Regain Supplies.**  
The Bolsheviks, General Bliss continued, are regaining coal, oil and grain lands in the old Russian empire and will soon be able to care for themselves regardless of any blockade.

The committee is considering a proposal by Secretary Glass to advance \$150,000,000 to Poland, Austria and other European governments for food relief. If such a loan were made, the allied governments should be required to aid Poland in a military way, General Bliss said.

**Protect Civilization.**  
Following General Bliss, Secretary Baker said food relief from America would "protect the civilization of the world." He declared chaos in Europe would effect America industrially by cutting off supply of raw materials that could be obtained only there and would seriously affect the ten billions of American loans to foreign government.

The situation in Austria was likened to that in Poland by the secretary who also touched on conditions in Armenia. Turning to Siberia, Mr. Baker said most of the population there was within thirty miles of either side of the trans-Siberian railroad and that distress was largely due to the inadequacy of railroad equipment.

Thirty thousand box cars on railroad side tracks in Siberia, Mr. Baker said, are occupied by persons who fled eastward from Russia to escape the revolution.

Most of the distress in Europe is in the cities, Mr. Baker continued, declaring that infant mortality in Budapest last January was 812 per thousand for those admitted to the state dispensary. Elsewhere in European cities similar conditions prevailed, he said.

At the close of the hearing, Chairman Fordney announced that the committee would meet Monday to act finally on a bill authorizing loans for the food relief.

### HID DAUGHTERS FROM MEXICANS

By Associated Press Leased Wire

Mrs. Wright describing how she concealed her daughters for days in order to keep them from the marauding Mexicans.

P. W. Warner, organizer of the Atascadero Colony also was a witness. His account of the vicissitudes of the American farmers on that property was similar to that of G. E. Blalock who testified yesterday.

Order the Evening Telegraph to your son or daughter who is now attending college or boarding school.

FROM HIGHBALL TO HIGHBOWL

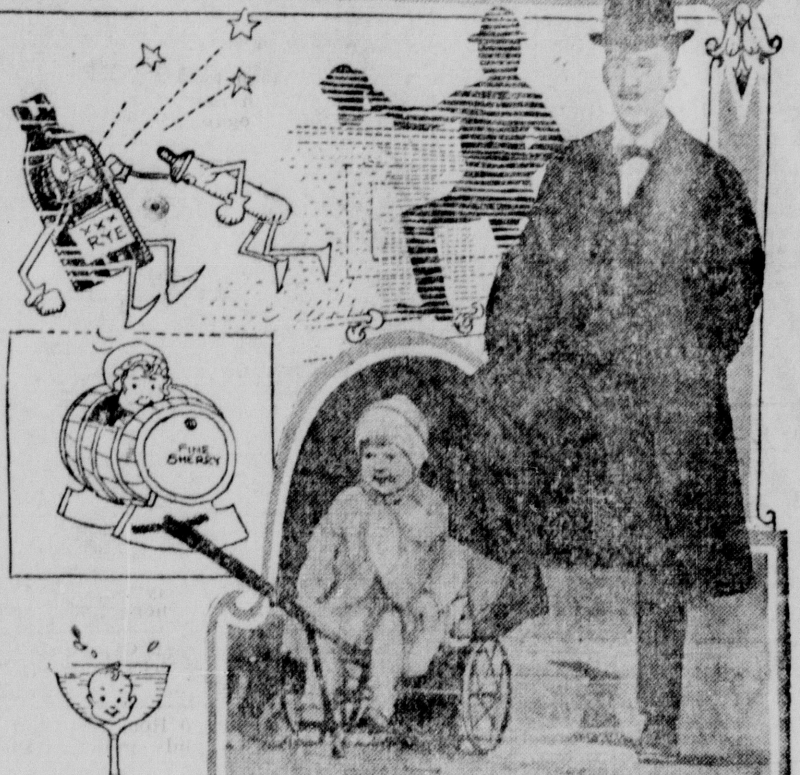

In the Baby Carriage Lies the New Interest for Now "Dry" Parental Mind, says Rector.

From the high-ball to the high-bowl, from the stationary mahogany bar to the perambulatory baby coach—this is the real substitute for the saloon in the opinion of Rev. Melville K. Bailey, Vicar of Holy Spirit Mission, which is located in the heart of that section which made a certain cocktail famous—the Bronx.

Responding to an invitation of the Nation-Wide Campaign of the Episcopal Church for suggestions for saloon substitutes, Rev. Mr. Bailey, postulating that what is needed in the prohibition era is a new interest to occupy the male mind, lays it down as the result of twenty-five years' study of the question that in the baby-carriage literally lies that new interest which will divert the parental mind from all thought of the saloon.

Says Rev. Mr. Bailey, who is hard at work in the interest of the Nation-Wide Campaign of the Episcopal Church to raise \$2,000,000 to expand its work in every field and play its full part in building a new order out of the present chaos: "Where the passion of paterfamilias is thoroughly aroused it dominates a man's whole energy. It drives him to the greatest efforts to succeed in labor or business, it impels him to cooperate with his wife in making the home a handsome and orderly abode and it kindles in his heart a sort of barbaric pride in the young whelp that is being wheeled about in the baby-carriage. The father may

not be a total abstainer, but when the really grand passion of paterfamilias has taken possession of his mind there is little room in it for that complex of social and physical enjoyment which is called the saloon."

And Rev. Mr. Bailey is prepared to prove his contention to anyone who will go into the district, over which he ministers, with him. Taking a photograph along with him recently, he had the human document embalmed. There it was! A squadron had come to anchor in front of a big apartment house—all sorts of babies, each installed

in a carriage, at the handle-bar of which was a proud father, who

As the photographer looked closer he made this important discovery. As they stood there, keeping watch over their young, those proud fathers, unconsciously perhaps, had each lifted a foot to the rear axle of his baby carriage, and in this position, reminiscent of other days, they were discussing the—well, what did men discuss in those days when, instead of resting their feet on the rear axle of a baby-carriage, they planted them on the brass rail of a stationary mahogany bar?

Candidates' Debates May Be Held By Proxy

By Associated Press Leased Wire  
Pierre, S. D., Jan. 15.—Candidates for presidential nomination under the new primary law of South Dakota must accept challenges to debate their policies with the opponents, but the debate itself may be conducted by proxy. This interpretation of the law was made yesterday by state officials in connection with the challenge to debate recently sent to President Wilson by James O. Monroe of Chicago, both of whom are candidates for the democratic nomination by virtue of the Richards primary law. President Wilson was endorsed for nomination by the proposed meeting of the state's democrats. Monroe filed as a candidate for the nomination independent.

Under the interpretation of the primary law President Wilson may accept the challenge and debate and assign any representative whom he may see fit to defend his political principles. (Editorial candidates, however, must do their own debating when challenged.)

THE WOMAN WHO LOVED--AND EARNED

By JANE PHELPS  
A Modern Story of Home and Business

GERRY HEARS JANE CARSON'S SIDE.

CHAPTER 34.

Jane and Betty came into the shop the next day and to my surprise Mary told them of her plan. I had not believed her in earnest until then. But I began to see she really meant to try to keep house for herself even if it were on a most limited scale.

"You see I am sick to death of living the way I do," she declared. "I don't blame any man for giving his wife the good-bye signal who makes him live in a boarding house all his life. I may get tired of it, Gerry says I will, but I am going to try it if it is the last thing I ever do."

"I think you are doing right, Mary. You'll have a lot of fun, and you'll make a lot of mistakes at first. But you can find a cozy place that doesn't cost too much, so you will be worried because of the expense; there is nothing like having a place of your own. Jane and I both tried boarding—Jane even after she was married—but you have the right idea. Get a place all your own, do as you like in it, and be happy and independent."

I had listened quietly until then. The girls evidently did not know I had heard. Now I said:

"I don't see but that Mary does as she likes where she is."

"Yes, but it is so different," Jane remarked, turning to me. "You know I was hard to convince—I taught after I was married because I hated to give up my position, and my salary. But I wouldn't go back for anything—not unless Carson were sick and couldn't support me."

"I should think you might have gone right on teaching. Your hours aren't long in the schools," I objected.

"They aren't long perhaps to the observer, but a successful school teacher has to do a great deal at home. Much of her school work is planned and arranged out of school hours. I found I could not be a good wife, not what Carson wanted, when my time thoughts were upon everything save him. Men may be selfish—I guess they are, even the best of them; but when I saw that Carson was unhappy, disappointed in me because I would not give up my work and make a home for him, why I sort of figured that his love was more important than anything else to me. I was not going to run the chance of losing him by refusing to do as he wanted me to. And—"

"I guess you wouldn't have lost him—I never saw a more devoted husband," I broke in.

"I know! but he was attractive to me, and he might also be attractive to some other woman who would do more than I would to please him. Then he has been so full of pep, so ambitious to get on since I gave up my work he has nearly made up all we lost by my throwing up my position. He has been advanced twice since I stopped bringing home a pay envelope. We are very comfortable, and very happy. I guess

men like a home better than we women imagine."

"Of course they do!" Betty spoke up decidedly. "Did you ever talk to a man who didn't want to put his legs under his own table, and say so? They want to smoke a pipe, to sit in their shirt sleeves if it is warm weather, and they all think a pile of their stomachs. At least any man I ever have known does, Frank included."

All this talk had not gone on interruptedly. Both Betty and Jane had bought hats, and it had filtered through the talk of styles, and becoming colors. I had taken little part in the conversation, as I was selling the hats. I was anxious the girls should get the very best value possible for their money, as well as to have something becoming.

I had listened to every word, however. Someway I resented that no matter where I was, who with the talk always seemed to veer around to men wanting a home. I also resented my own feeling of annoyance. Hadn't Robert and I talked it over and decided we were doing the right thing to wait? But all this talk of men wanting a home, home cooking and other comforts, made me uncomfortable, if not downright unhappy.

Then, too, I knew Robert was not as contented as were Frank Weed and Carson Murphy; also that he was not doing as well in business.

Tomorrow—Robert Dines at Marion Hoveys.

Chicago Prepares to Fight Flu Epidemic

By Associated Press Leased Wire  
Chicago, Jan. 14.—A campaign of defense against a possible recurrence of an influenza epidemic began here today under direction of John Dill Robertson, city health commissioner.

Plans were made to call out 2100 alumni of the Chicago Training School of Home and Public Nursing to care for patients, if conditions warrant.

"Indications are that we are not in for an epidemic," said Dr. Robertson. "When influenza swept the country thirty years ago it returned in a comparatively light form the following year. In my opinion that is what is happening to us now."

### SERVICE STAR LEGION—

On Tuesday, Jan. 13th, the Service Star Legion met in regular session in G. A. R. hall.

The meeting was opened with a song, "The Red, White and Blue." This was followed by an especially pleasing vocal duet given by Mesdames Morris Rosbrook and Dogwiler, accompanied on the piano by Miss Eleanor Coppins. All greatly appreciated their number. A portion of the scriptures was read by the recently elected chaplain, Mrs. Wilhelm, and the Lord's prayer and club slogan were repeated. A password was adopted by the local chapter at this meeting. Reports from the secretary and treasurer were read and approved and several committee chairmen also gave reports.

Mrs. Rosbrook, the president, read a letter from the French orphan which the chapter had adopted and several letters of thanks, received by the flower committee, were also read.

Then came what the chapter was so greatly interested in hearing, the report of the first annual state convention of Service Star Legions, held in Decatur on January 8th. This was given by Mrs. Marie Hetler, first delegate. Questions were also answered by the other delegates.

Following this the newly elected officers took their respective places. The president, Mrs. Edna Rosbrook, had been unanimously elected to serve in that capacity for another year and in view of her faithful service she was presented by the chapter with a bouquet.

devotional service. Routine business followed. Mrs. W. J. Worsley had charge of the study chapter and presented in a most interesting manner the subject, "The Americanization of the Alien." Miss Marion Weitzel very beautifully rendered the vocal number, "Paradise," with Mrs. Groyer playing her accompaniment on the piano. The two little daughters of the hostess, Aleta and Janet, gave a very pleasing piano duet and responded to an encore, as did also Miss Weitzel. Forty-three members responded to roll call. At the close of the program refreshments were served and a social hour enjoyed.

### KINGDOM COMMUNITY AID—

The customary good scramble dinner was served at noon and was followed by an enjoyable social afternoon, with phonograph music furnishing some of the entertainment. A number of pieces of hammered brass work, sent to Mrs. Miller by her son, Leon, while he was in France, received the admiring attention of the guests. The next meeting will be held in two weeks with Mrs. Charles Breisch at her home south of Dixon on the Peoria Road.

### FOR MRS. TROTTNOW—

A scramble supper at G. A. R. hall, in which about fifty people, members of G. A. R. Post and the Ladies of the G. A. R. Circle and their families, participated was an enjoyable affair of last evening. Mrs. Ethel Trottnow, who leaves the first of next week for her new home in Minneapolis, was the guest of honor and after the supper, one of unusual excellence, she was presented by the president of G. A. R. Circle, Mrs. White, with a string of pearl beads as a token of remembrance. Mrs. Trottnow has been one of the active members of the circle, many times an officer, and will be greatly missed. Dancing and cards completed the delightful evening.

## "GIMME A NICKEL."

The old-fashioned boy who had to  
chop kindling or go to bed without sup-  
per now has a son who demands wages  
for chores.

"What are we going to do about  
this?" asked members of the Federation  
of Mothers' Clubs of Cincinnati who  
met to discuss the problem several days  
ago.

"My children have gotten so they do  
not want to do a thing unless they are  
well paid for it," one mother testified.

And another said: "My little girl does  
not like to mop up the kitchen. I of-  
fered to pay her 5 cents, not so much  
to get the work done, as to let her learn  
how to do it."

Quite wisely the mothers decided that  
paying a child for work at home is not  
an evil at all, but on the contrary, has  
positive moral worth.

A nickel or a dime earned by work  
ever so trifling has more value to a  
child than a nickel or a dime on demand.  
It stands for work; for effort; for some-  
thing given in return.

We are sorry for the child whose  
open-handed parents respond always  
readily to the appeal "Gimme a nickel."  
(They no longer ask for more pennies.)

Easy money is the enemy of thrift.  
Money earned is less readily spent and,  
having greater value, is less foolishly  
spent.

Payment for work done by children  
within the home should be within  
bounds, of course. We like the system  
of the mother who, at the meeting in  
Cincinnati said:

"I pay by the piece. For scrubbing  
the porch, my boy gets 5 cents, and 2  
cents for errands to the grocer. I have  
a wage scale for him. At the end of the  
week, when he wants money he writes  
a check against this account, which his  
father keeps for him.

## A SUPERFLUOUS OFFER.

Gabriel D'Annunzio, bidding farewell  
to an English press correspondent at  
Fiume, gave him his morsel for the dis-  
cussion of the folks at home:

"We are the crusaders of the twen-  
tieth century. After Fiume we shall  
liberate Egypt from British rule, and  
then Ireland will be freed from the  
domination of her oppressors."

So far as Egypt is concerned, it may  
be that a flaming sword and a bald-  
headed poet are needed to make a going  
concern of the revolution. But we  
scarcely think he will meet a long-felt  
want in Ireland. The little island is  
seemingly well supplied in the matter  
of leadership, of inspiring oratory and  
the will to shoot holes in the governing  
class. If we are not mistaken there are  
Irishmen, both of the north and the  
south, who could instruct D'Annunzio  
in the art of making governments, min-  
istries and ambitious statesmen most  
dreadfully uncomfortable.

Jellison says that the outstanding re-  
sult of Jutland was Scapa Flow. We  
thought in our provincial way that the  
Argonne had something to do with it.

Belgium's plea is that because she  
stood a lot from Germany she is en-  
titled to a strip of Holland. Cheese it.  
The Scheldt isn't Shantauing.

That New York man who bought his  
wife an \$85,000 coat chose a more ef-  
fective means than propaganda for the  
making of radicals.

And now the only way to get more  
than one-half of one per cent is to buy  
wood alcohol and flirt with the under-  
taker.

This man Brown, who declares that  
kissing shortens life, may have in  
mind the kissing of another man's wife.

SCHOOL NURSE PROVES  
OF GREAT BENEFIT TO  
CHILDREN OF THE CITYMiss Martha Meppin is Im-  
proving Health of  
Dixon's Kids.

After a little over a week's experi-  
ence, the advantages of having a school  
nurse in the Dixon schools are most  
evident. Miss Martha Meppin has held  
that position since January 5th and  
has been a most busy person ever since  
in visiting the different schools and ex-  
amining the pupils. Though not neces-  
sarily included in her work, homes also  
have been visited by Miss Meppin in  
her care for the physical welfare of the  
children who come under her super-  
vision. The work will without doubt re-  
sult in not only the betterment of the  
children but in raising the health stand-  
ard in the homes and the community.

**Children Examined**  
A preliminary examination of every  
child enrolled in the schools, reports to  
parents of any extraordinary or un-  
healthy condition in the child which  
could be bettered by medical or surgi-  
cal attention, consequent examination  
to see that such attention has been  
given in following up the case, and a  
record kept of every child's physical  
condition is a part of the work of the

nurse. Stress is also to be laid on per-  
sonal cleanliness of the pupils.

A dental clinic in order that the  
children's teeth may receive proper at-  
tention is a hope of the school nurse  
and the school authorities.

## Is Hospital Graduate

Miss Meppin is a graduate of Hah-  
nemann hospital, Chicago, and has been  
working in her profession since 1909.  
The school is to be congratulated in se-  
curing the services of so thoroughly  
competent a woman. Her whole time is  
being given to the work in the schools  
and the result should be a healthier lot  
of children growing into men and wom-  
en free from physical handicaps as  
well as the lessening of epidemics of  
contagious diseases.

Pioneer Lake Captain  
Enters Last Harbor

By Associated Press Leased Wire  
Chicago, Jan. 15.—Captain Roswell C.  
Smith, the oldest lake captain in point  
of service, died here yesterday. He  
served for seventy years on Great  
Lakes boats, for sixty years as cap-  
tain. During that time he brought his  
craft through some of the worst storms  
on the lakes and never suffered an acci-  
dent. He was 92 years of age.

in San Francisco on January 8th, and  
on the 12th expected to leave there for  
Camp Grant where his discharge will  
be issued. He had been in Siberia since  
September, 1918, and is a member of Co.

Expect to Issue Over  
500,000 Auto Licenses

By Associated Press Leased Wire

Springfield, Ill., Jan. 15.—The auto-  
mobile department in the office of Sec-  
retary of State Emmerson is now in the  
midst of its annual rush to supply Il-  
linois automobile owners with their 1920  
license tags. Applications for licenses  
have been received since the beginning  
of the year at the rate of from 600 to  
1500 a day. It is expected that over  
500,000 licenses will be issued this year.

Like clothing, shoes and food the li-  
censes cost more this year than ever be-  
fore. Under the law in effect this year  
the license for a pleasure car costs \$3.00  
an increase of \$2.00 over last year's  
price. There is a corresponding in-  
crease in the license fee for all other  
cars.

All the money received from licenses  
will be used to retire the \$60,000,000  
bond issues for the construction of hard  
roads. The bond issue was voted at the  
general election in 1918.

Make Blocks Here  
for All State Work

By Associated Press Leased Wire

Springfield, Ill., Jan. 15.—Cement  
blocks for use in state buildings now  
under construction are being manufac-  
tured by state employes, thus effecting  
a great saving in the cost of construc-  
tion.

The blocks are being made at Dixon  
for use in the buildings at the Dixon  
State Colony for Epileptics and at Alton  
for the Alton State Hospital. It is es-  
timated that the state can manufacture  
the blocks at one-half what they would  
cost in the open market.

Aurora, Ill., Jan. 15.—Two hundred  
five-men teams have entered the sixth  
annual Inter-State Bowling tournament  
which opens here Jan. 23 and runs four

named. High water mark for previous  
tournaments was 130 five-men teams.  
The prize list this year exceeds \$6000.

France Worried Over  
Her Low Birth Rate

By Associated Press Leased Wire

Paris, Jan. 15.—Traditions that the  
birth rate of a country always increases  
after a war have proved fallacious here.  
Statistics of prefecture of police show  
the rate is still sinking. The number  
of births in Paris in recent months has  
been higher than ever but this is due to  
the fact that the population has been  
augmented by 500,000 persons during  
the last year. The number of births per  
thousand of population, the vital test,  
is lower at present than it was before  
the war in 1914.

Leader Calls Association a "Stabilizing  
Influence" in Outlining Post-War  
Program for Women—Federal Council  
of Churches to Announce "Y. W.

Mrs. John D. Rockefeller, Jr., chair-  
man of the National Educational Cam-  
paign Committee of the 1920 World  
Service Program of the Young Women's  
Christian Association, has made the  
following statement:

"Since the war we are more than

educational, social and religious diffi-

paign Committee of the Young Women's

culties which beset the lives of girls  
and women everywhere. In meeting  
the post-war needs of women the  
Young Women's Christian Association  
stands as an instrument of service,  
tested and proven by war, and organ-  
ized to meet the manifold problems of  
peace.

"Because of its fifty odd years of ex-  
perience in meeting fundamental prob-  
lems affecting girls, the Young Women's  
Christian Association is an organi-  
zation particularly fitted to exert a  
stabilizing influence upon the troubled  
times through a consistent program of  
service for girls and women.

"American women are asking how  
they may share in the world's recon-  
struction. They can do so by enlisting  
the support of their communities for  
this World Service Program, which will  
insure to the world a healthier and bet-  
ter womanhood.

"This campaign of the Y. W. C. A.  
to tell the people of the United States  
about its work and to raise \$3,000,000  
with which to carry on Y. W. C. A.  
work during 1920 in the United States  
Europe, China, Japan, India, South  
America, Egypt, Siberia and Mexico  
will close the week of February 22 to  
29, which will be known as Y. W. C. A.  
Week.

"The Federal Council of Churches  
will probably set one Sunday as a time  
for ministers throughout the country to  
address their congregations on general  
conditions affecting women and the  
Young Women's Christian Association  
as an instrument of service.

"The immediate task is to bring to  
the people of the United States a  
knowledge of conditions affecting the  
lives of women in all parts of the  
world. We can no longer ignore the  
character, the manner of life and the  
ideals of other peoples, whether we  
want to or not. A special call is now  
coming to the Association from China,  
Japan, India and South America,  
where work was held back during the  
war because of the necessity for spe-  
cial activity in France and the United  
States.

"The World Service Program calls  
for \$4,500,000. Of this amount \$1,500,  
000 has already been secured."

The educational campaign commit-  
tee includes among its members Mrs.  
Robert E. Speer, president of the Na-  
tional Board of the Y. W. C. A.; Mrs.  
Henry P. Davidson, Mrs. William Van  
V. Hayes, Mrs. Robert L. Dickinson,

SMALL Y. W. C. A. IS  
COMMUNITY CENTER

Recreation for Girls Is Important Fea-  
ture of Work.

Fifty-two young women in the United  
States are known as Y. W. C. A.  
"town secretaries." All of which  
means that the fifty-two are organizing  
recreation work for girls and for the  
community at large in towns of less  
than 10,000 inhabitants.

The Y. W. C. A. may be in one rent-  
ed room or more. It may be a whole  
building, but at any rate there is a re-  
creation room and if possible a kitchen,  
reading and writing rooms. If the Y.  
W. C. A. has a building of its own it  
becomes a community center, where all  
women's organizations may meet.

## Policeman Wounded in Gun Fight with Robbers Last Night

By Associated Press Leased Wire  
Steger, Ill., Jan. 15.—A revolver fight  
between Frank Glasgow, 54, and five  
bank robbers aroused this town early  
this morning. Glasgow was seriously  
wounded but the robbers were driven  
away after they had blown off the outer  
door of the vault of the Bank of Steger.  
The first explosion attracted Glasgow  
and he took shelter behind a telephone  
pole directly opposite the bank. He  
opened fire on the robbers and his first  
shot is believed to have wounded one of  
them. The men ran for their automobile  
in front of the building, firing at Glas-  
gow meanwhile and two of their bul-  
lets struck him, one in the left arm and  
the other in the abdomen. The bandits  
escaped when the policeman fell after  
his second wound.

Salem, Mass., Jan. 15.—Thirty thou-

Eastern Massachusetts Street Railway  
and a large part of the interurban ser-  
vice were discontinued at midnight, the  
public trustees of the road having re-  
fused to operate the cars in this vicin-

## Govt. Threatens to Take Natural Gas

By Associated Press Leased Wire

the "rigid and arbitrary hand of gov-

natural gas resources of the country  
unless concerted effort is made to cur-  
tail the present enormous waste," was  
given by Secretary Lane at a confer-  
ence called to consider necessary means  
of conservation.

Secretary Lane declared that more  
than two-thirds of the natural gas  
drawn from wells was wasted in addi-

## REDS MAY EVADE DEPORTATION AS RESULT DECISION

Immigration Authorities  
Fear Weakening  
of Their Cases.

By Associated Press Leased Wire  
New York, Jan. 15.—Fears that a de-  
cision of Federal Judge Knox, that ex-  
tremists held in deportation proceedings  
must be released on bail immediately,  
would prevent deportations, caused the  
immigration authorities to consult the  
United States Attorney's office today in  
regard to an appeal from the decision.

Authorities at Ellis Island expressed  
the belief that if aliens were released  
before they had been examined by im-  
migration inspectors it would be im-  
possible to prove in many cases that  
they should be deported and conse-  
quently many taken in recent raids  
would be released.

In behalf of Byron H. Uhl, acting  
commissioner at the island, it was ex-  
plained that he had not failed to obey  
the orders of his superiors in regard to  
admitting radicals to bail. Percy A.  
Baker, superintendent at the island said  
that deportation warrants provided that  
aliens "may" be admitted to bail, but  
that the court had interpreted this as  
mandatory. Throughout the deporta-  
tion proceedings, Mr. Baker said, Mr. Uhl  
had been following the orders of the De-  
partment of Labor and the practice of  
years.

Judge Knox in a decision yesterday  
said that he would sustain writs of ha-  
beas corpus for Gregory Weinstein,  
"Chief of Staff" of Soviet, "ambassa-  
dor" Martens and several others whose  
cases were before him, unless they were  
admitted to bail.

## HUNGARY KNOWS NOW HER PRICE IN MAKING PEACE

By Associated Press Leased Wire  
Paris, Jan. 15.—The terms of peace  
for Hungary, framed by the peace con-  
ference were handed to the Hungarian  
delegation here this afternoon. The  
Hungarians were given 15 days in  
which to present their observations.  
The treaty was received by Count Al-  
bert Apponyi, head of the delegation,  
from the hands of Paul Dutasta, gen-  
eral secretary of the peace conference, in  
the presence of Premiers Clemenceau,  
Lloyd George and Nitti, Hugh C. Wal-  
lace, the American ambassador, and  
Baron Matsui, the Japanese ambas-  
sador.

Premier Clemenceau made a brief ad-  
dress, in the course of which he spec-  
ified the time allowed Hungary to reply.  
He added that the council had decided  
unanimously to grant the request of  
Count Apponyi that he be permitted to  
explain verbally before the Allied coun-  
cil the present situation of Hungarian  
government. M. Clemenceau said this  
would be allowed provided that no dis-  
cussion should follow. The council will  
hear Count Apponyi tomorrow.

The entire ceremony of the presenta-  
tion lasted barely five minutes.

## Captain Hun U-Boat Suicided with Poison

By Associated Press Leased Wire

commander of the submarine which  
sank the French battleship Danton and  
other vessels, died yesterday in a hos-  
pital at Hamburg after having taken  
poison according to the Lokal Anzeiger.

The French battleship Danton was  
torpedoed in the Mediterranean March  
19, 1917. She sank a half hour after  
being hit with the loss of 296 men. The  
remaining 806 men of her complement

E. R. Buck.

The Madison County Board of Su-  
pervisors have appropriated \$1200 to  
assist in the operation of a venereal  
disease clinic at Alton for the coming  
year.

The City Council of Mattoon has  
passed an ordinance providing for the  
quarantine of persons infected with  
venereal diseases, and for the reporting  
such to the State Department of  
Health.

Five hundred and forty physicians  
were admitted to practice by the State  
Board of Health during the year 1882.  
One hundred and seventy-four failed to  
attain the required standard.

An intelligent woman remarked: "A

## FIND PRECEDENT IN CONGRESS FOR SUSPENDING FIVE

Speaker Sweet of N. Y.  
Assembly Says Ac-  
tion Was in Order.

By Associated Press Leased Wire  
Albany, N. Y., Jan. 15.—Precedent for  
the action of the assembly in suspend-  
ing the five socialist members suspend-  
ing the investigation by the judiciary  
committee determine whether they are  
qualified to serve as legislators is found  
in the case of Brigham H. Roberts,  
elected to the 56th congress from Utah,  
according to Speaker Thaddeus C.  
Sweet of the assembly. This declara-  
tion was made by the speaker today.

"The remarks made in debate by cer-  
tain members of the assembly during  
the sessions of 1918 and 1919 upon leg-  
islation then pending pertaining to the  
successful prosecution of the war had  
attracted my attention," Mr. Sweet  
said. "This attitude upon their part,  
together with information which came  
to me from federal intelligence officers  
led to the adoption of the resolution  
which created the legislative committee  
known as the Lusk Investigating Com-  
mittee of which I am ex-officio a mem-  
ber. My observation of these members  
in legislative action together with evi-  
dence presented to the Lusk committee  
and other information convinced me, as  
it has others, that my duty to the state  
and to the nation demanded that be-  
fore these five members should be per-

mitted to participate in the delibera-  
tions of the assembly their eligibility  
and qualifications should be passed up-  
on by the assembly. This decision was  
reached after deep study of the subject  
and after consultation with men whose  
Americanism cannot be questioned.  
"The resolution introduced by Mr.  
Adler did not expel these members from  
their seats. It empowered the judiciary  
committee to investigate their quali-  
fications and eligibility to sit as mem-  
bers and suspended them until the  
committee should report on the sub-  
ject.

"The impropriety of a member sit-  
ting in a legislative body and voting  
upon the adoption or rejection of a re-  
port in respect of his conduct would  
seem to be manifest and to justify his  
temporary suspension. This is all that  
has been done.  
"The assembly has followed the  
usual, orderly and well-led rules and  
precedents in such cases."

## American Sailors Released By Mexico

By Associated Press Leased Wire  
Washington, Jan. 15.—Harry V.  
Learned and Harry O. Martin, sailors  
of the American submarine chaser To-  
comoke, who were arrested at Mazatlan  
on a charge of assaulting a Mexican citi-  
zen and sentenced to two months' im-  
prisonment were released last Tuesday  
night, according to advices to the state  
department today from the American  
consul at Mazatlan. The sailors are be-  
ing cared for by the consul who asked  
for instructions as to how to return  
them to the United States.

## WOULD REQUIRE ONLY ENGLISH IN M. E. CHURCH

By Associated Press Leased Wire  
Syracuse, N. Y., Jan. 15.—A move-  
ment has been started to have English  
the only language used in services of  
the Methodist Episcopal church  
throughout the United States after this  
year. The matter is expected to be  
voted on at the quadrennial conference  
of the denomination next May in Des  
Moines.

The Rev. Dr. E. M. Mills, general sec-  
retary of the Methodist Episcopal  
church in America, announced today he  
had received petitions from several con-  
ference bodies requesting that a rule  
for the exclusive use of English be  
adopted.

Such a rule would affect sixteen con-  
ference bodies, of which ten are Ger-  
man speaking and the others use Dan-  
ish, Swedish and Norwegian. The Ger-  
man speaking churches have voiced a  
strong protest.

## Y. W. C. A. CALLS BIG CONVENTION

2,000 Women Expected to Gather in Cleveland the Week of April 13-20, 1920, for National Convention.

### MEETING POSTPONED TWO YEARS BY WAR

Delegates Will Discuss New Membership Basis for Students and Question of Future Support for Work. Many Other Things.

The Young Women's Christian Association of the United States of America will meet in national convention in Cleveland, O., the week of April 13 to 20, having postponed the convention from the spring of 1918 in order to comply with a government request that expense and travel be reduced to a minimum during the war.

The department on conventions and conferences of the National Y. W. C. A., of which Mrs. Harry Emerson Fordick is chairman, estimates an attendance of 2,000 women, representing all departments of Y. W. C. A. work—board members, secretaries, students, club girls, Girl Reserves, girls from Industrial Service Centers, women from the International Institutes for foreign born women, members from city, town and country Associations.

Each Association in the United States will be entitled to one voting delegate for every one hundred voting members in the Association.

Two of the most important questions which will come up before the convention will be the membership basis and the question of support. Of old business to be considered the most important question will be the membership basis for student associations, the granting of charter membership privilege to the Chicago Young Women's Christian Association and a recommendation providing an increase in membership of the National Board of the Association will also be presented.

Rev. Charles W. Gilkey, pastor of Hyde Park Baptist Church, Chicago, will give a series of morning addresses during the convention week. Dr. Robert E. Speer, secretary to the Foreign Mission Board of the Presbyterian Church, North, will also give an address. Mrs. Speer is chairman of the National Board of the Y. W. C. A.

The convention will be in session morning and evening, the afternoon being given over to sectional meetings held in various churches. Attendance at these meetings will be determined by group membership and also by activities.

Mrs. W. P. Harford of Omaha, Neb., will preside at the opening session, having been elected as president at the last convention of the Young Women's Christian Association, held in Los Angeles in 1915.

The committee on business to come before the convention has for its chairwoman Mrs. John French and includes among its members Mrs. John D. Rockefeller, Jr., Miss Eliza Butler, sister of Nicholas Murray Butler, president of Columbia University; Miss Martha McCook, Miss Mabel Cratty, general secretary for the National Board of the Y. W. C. A., and Mrs. William Adams Brown, all of New York city.

## TOWN GIRLS TO HAVE Y. W. C. A.

Association Maintains 52 Town Secretaries—Wants to Expand Work at Once.

"During the war girls all over the world had their first lesson in nation wide and world wide thinking," says Miss Mabel Head, director of Town and Country Work for the National Y. W. C. A.

"Girls learned something of the inspiration of working with hundreds and hundreds of other girls, unselfishly and unostentatiously, through Red Cross work. Now the Y. W. C. A., through its world wide program of service for women, is planning to expand its work so that girls all over the world, and particularly in smaller communities, will not lose this experience.

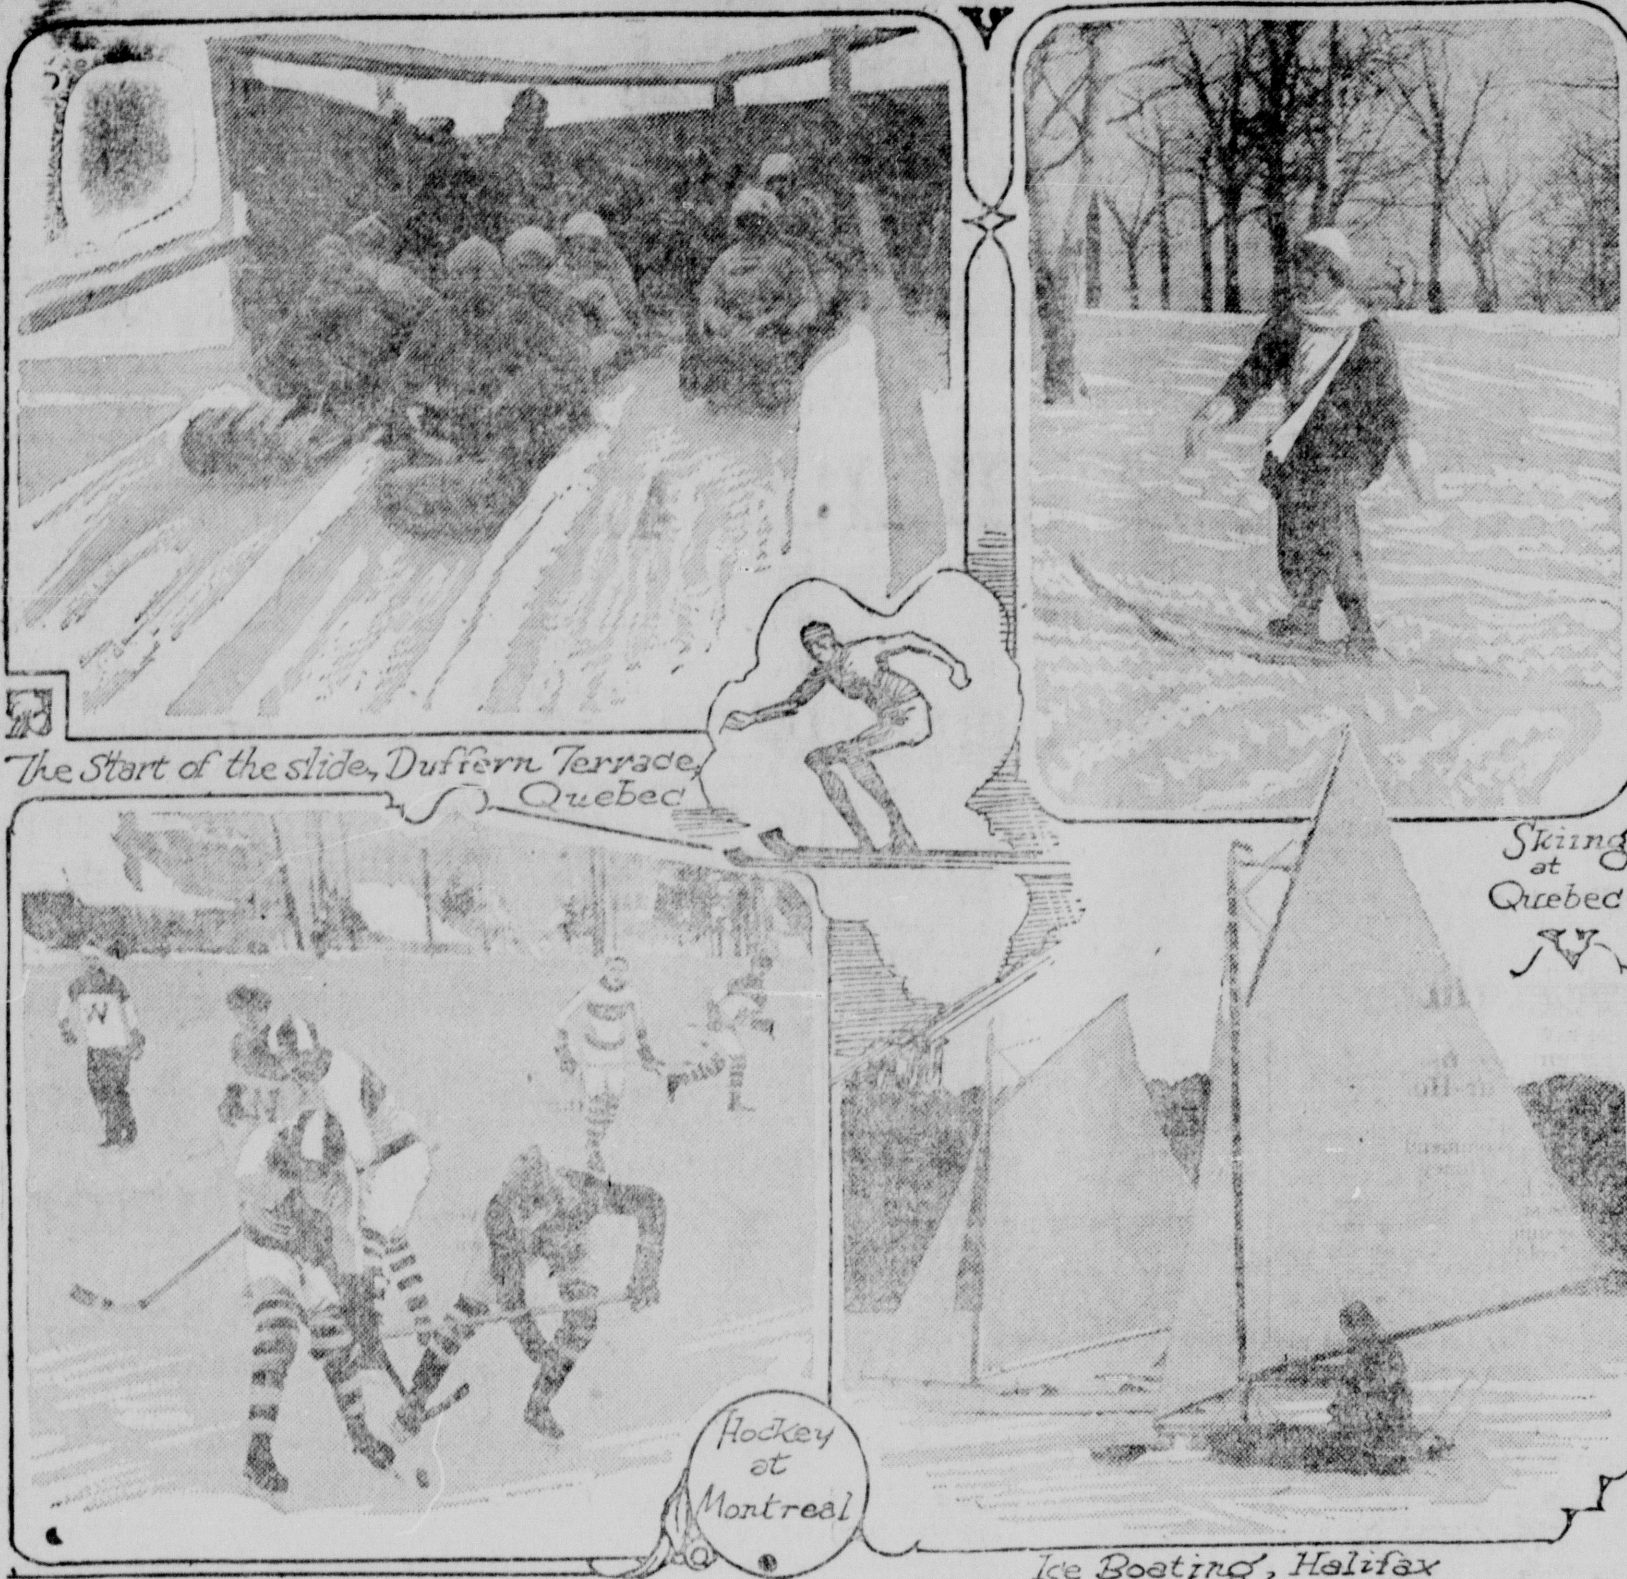

"Citizenship forums are being organized for girls in small communities, where girls may come together to learn more about their country and their responsibility to it and as citizens of the world.

"Reading courses have been planned at National Headquarters in New York so that a girl in any community may carry on a course of study, either by herself or with other girls, on a wide variety of subjects.

"The Y. W. C. A. has at present thirty-nine secretaries doing county work. This means that they travel about from one community to another helping girls to plan out social, recreational, educational and religious activities for themselves and organizing them to carry on these activities. These secretaries work with the county agents of the Department of Agriculture in carrying on home economics work. They help plan pageants, arrange benefits, assist the girls in going to Y. W. C. A. summer conferences and help plan all sorts of social good times for the community."

The physicians and druggists of the Tri-Cities, LaSalle, Peru and Oglesby have entered into an agreement whereby the physicians will quit dispensing to venereally diseased persons, and the druggists will quit selling remedies except upon prescription by licensed physician.

## CANADA'S A-ROLICKING ON THE SNOW CRUST

The lid is lifted in Canada—er, the temperamental lid. The damper of war and absence of loved ones is removed. In local parlance, "la guerre est finie" and gay spirits are making up for lost seasons by a riotous whirl of winter sports.

As the days begin to lengthen and the cold begins to strengthen, the snow takes on a sparkling dryness that adds to the pleasure of outdoor sports. For the months of January and February all Canada becomes a

toxicated with the desire to spend as many hours as possible in the open. Visitors to the Dominion find this mood infectious and nowhere is this more in evidence than in the quaint old city of Quebec.

Nature fashioned this city's site for sport. Every steep little street that claws its crooked way from the waterfront to the heights, is a possible slide, while the triple track toboggan slide that begins at the grim gray Citadel and ends in a huge snow bunker on Dufferin Ter-

race is world famous.

The picturesque many-turreted Chateau Frontenac that overlooks this slide, is naturally headquarters for Society during its winter revels. Its charming tea-room opens onto the Terrace and glowing tobogganists run in for a cheering cup, then disappear through another door that gives onto the inner court where skating and ice-dancing are in order.

Merry parties assemble in the tea-room at all hours. One party will be ready for a snowshoe tramp to "The Rendezvous" with its tea and

cakes, five miles across country. Another group will have requisitioned the 1919 Model bob-sleighs, that form part of the Chateau's sport equipment, for a sporty racing event.

An impending hockey match is providing spirited discussion and betting in a bunch about the big five place. Still another party is preparing to ski, and there is no reason why every visitor to Quebec should not learn this graceful sport for the Chateau management has engaged two Norwegian ski-jumpers to instruct its guests.

## TELLS OF PLANS TO KEEP GRAVES OF FALLEN GREEN

Senator Chaplain Urges All Bodies Be Left in Foreign Graves.

By Associated Press Leased Wire  
Washington, Jan. 15.—Bishop Charles H. Brent, senior Chaplain with the American Expeditionary forces in France has addressed an open letter to Secretary Baker and the next of kin of the American dead in France regarding the return of the bodies of American soldiers who fell overseas. The letter was made public today by the American Field of Honor Association, which is opposing the movement for the whole-sale return of the bodies and follows charges presented in the senate and house that the movement is being fostered by undertakers for their personal profit.

"America," wrote Bishop Brent, "has left to the decision of the nearest of kin, of each case, where the final resting place of our dead is to be—whether in France or in this country. No one will dispute the right of parent or wife to claim the fulfillment of the promise made by the American government to return to America the bodies of our dead soldiers. But it is conceded that there are those who, after long and hard work to establish and maintain in France an American Field of Honor for those who are 'Forever Overseas' may consider this the more excellent way."

"There will be an American Central Field of Honor with as many departments as may be necessary. Here each year on an appointed day commemorative of the dead, will be observed. Over all the sheltering folds of the Stars and Stripes will forever wave."

"The plan aims to pay high honor to those to whom high honor is due. It would preserve as far as may be the comradeship of the war among those who met a common fate. It would express to all who are bereaved the undying value of the sacrifice made. It would perpetuate in death that work begun in life to bind together nations of like ideals."

Another Rail Wage  
Increase is Signed

By Associated Press Leased Wire  
Washington, Jan. 14.—Director General Hines has signed a national agreement covering rules and working conditions with the Brotherhood of Railroad and Steamship Clerks, Freight Handlers and Express and Station employees. The agreement, it was announced today, is retroactive to Jan. 1, and will continue in force during the period of federal control.

The agreement provides for 12c and a half for overtime after eight hours, applying to all employees except certain workers whose employment is light or intermittent, and for one day's rest each week except where operation of the individual railroads would be affected.

Brotherhood officials requested a national agreement last summer and the subject has been under consideration since that time first by the regional directors and later by the board of railway wages and working conditions.

Corn Higher Today  
But Closed Nervous

By Associated Press Leased Wire  
Chicago, Jan. 15.—Announcement that 70 per cent of the grain cars sent to the elevators here would be loaded with wheat was a source of much difference of opinion today among corn dealers. At first a majority of traders were inclined to believe that the effect on corn would be bullish. Later, however, the more generally accepted theory was the reverse. Opening prices, which ranged from 1/4c off to 1/2c advance, with May 1.33 to 1.33 1/2 and July 1.31 1/2 to 1.32, were followed by moderate general upturns, and then by a setback all around to well below yesterday's finish.  
Oats paralleled the action of corn. After opening unchanged to 1/2c higher, including May at 81 1/2 to 82 1/2, the market underwent considerable of a sag. Subsequently strength in hog values helped to bring about a rally, and so too did seaboard buying of corn. The close was nervous 1/2c to 1/2c net higher, with May 1.33 1/2 to 1.33 1/2, and July 1.31 1/2.

American Assn. in  
Favor of Schedule of  
154 Games in 1920

By Associated Press Leased Wire  
Chicago, Jan. 15.—Sentiment strongly favored the adoption of a 154 game schedule when club owners of the American Association met here today to lay plans for the resumption of the game on a pre-war basis in 1920. The election of officers and the fixing of a player and salary limit was the other business up for consideration.  
President Hickey, whose re-election seemed assured said he would urge the adoption of 154 game program, opening the season April 14, the date of the major league opening, and closing about Sept. 27 or 28.

Otto Borchert, the new president of the Milwaukee club, announced that Leo Fohl, former manager of the Cleveland Americans, had made application to pilot the Milwaukee club this season. Other applications, he said, included Jack Egan of Providence, R. I., a former manager of the Milwaukee team.  
Mordecai Brown of three fingered pitching fame, attended the meeting in search of players. Brown is manager of the Terre Haute, Ind., club of the Three-I League. William Rourke, the owner of the Omaha Western League club, and New Hanlon, owner of the St. Joseph, Mo., club of the Western League, also were in attendance to arrange deals for surplus players.

Beliefs That Center About Pearls.

Many superstitious beliefs prevail in the East concerning pearls, those gems of the ocean deeps. For instance, it is a common practice (only among the rich, needless to say) to powder a pearl and swallow it either as a tonic for failing vigor or to ward off impending disease or ill luck; or a maiden may rub her eyes with a pearl and thereafter, by merely gazing at a man, she may make him her slave!  
Walk in Faith.  
Have faith, then, oh you who suffer for the noble cause; apostles of a truth which the world of today comprehends not; warriors in the sacred fight whom it yet stigmatizes with the name of rebels. Tomorrow, perhaps, this world, now incredulous or indifferent, will bow down before you in holy enthusiasm. Tomorrow victory will bless the banner of your crusade. Walk in faith and fear not.—Mazzini.

A "Rattling" Good Car.

At the sale of government cars recently held in London one of the cars was described as a "rattling" good one. It is said that the sale included a tame squirrel trained to run behind and pick up the falling nuts. Truly English humor is of a more gentle kind than ours.—Living Age.

The board of local improvements is in session this afternoon at the city hall considering the improvement of Peoria avenue. Solomon Predicted It.

In the book of Tobit, chapter 5, verse 16, there is this statement—"and the young man's dog went along with them." In one of the published accounts of the Tuesday election in New York city there is this statement—"the women went to the voting booths and, in many instances, their dogs went along with them." As King Solomon remarked, there isn't any thing new under the sun.—Baltimore American.

Good Practice in Banking.

A banker I know says that in loaning money he also asks about a man's wife. Is she a spender? Does she often run the family financial affairs against her husband's judgment? The banker is suspicious of that sort of man. You may think when a woman is very prominent socially she "helps" her husband, but this banker denies it.—E. W. Howe's Monthly.

LUKE-BOLLIVAR WEDDING—

A quiet but pretty home wedding took place at the home of Mr. and Mrs. Charles Bollivar, of South Dixon, on Wednesday when their daughter, Edna Lucille, was united in marriage to John Frederick Luke, of Dillsboro, Ind.

The bride wore a gown of white tulle and Georgette crepe, trimmed with silver lace, with a long veil held in place by a wreath of orange blossoms. A bouquet of bride's roses was carried.

The bride entered the room on the arm of her father who gave her away.

The ceremony was performed 'neath a bower of pink and white before a bank of houseplants. The wedding march, "The Bridal Chorus" from "Lohengrin" was played by Miss Dora Worrell, of Ottawa, Ill. The two small daughters of William Luke, Margaret and Edith, served as flower girls, each carrying a bouquet of carnations. The ceremony was performed by the Rev. H. M. Babin, of St. Luke's Episcopal church at the noon hour.

The guests were served with a luncheon after the ceremony. Pink and white carnations were used on the table and the house throughout was decorated in pink and white.

The happy couple left shortly afterwards on their honeymoon trip. The bride's going away costume was a brown satin dress, with coat, hat, and other costume accessories in the same color.

The bride is the second daughter of Mr. and Mrs. Bollivar and is a delightful young woman. Mr. Luke is an industrious young farmer who has made his home in South Dixon for the past several years with the exception of 18 months' service in the army with the 124th Field Artillery. Twelve months of this time was spent in overseas service.

Mr. and Mrs. Luke will reside on a farm in South Dixon. Their many friends join in wishing them all joy and happiness in their wedded life.

Peoria, Ill., Jan. 15.—Prospects of building a new baseball park confronts officials of the Peoria Baseball Fans association, controlling the Three Eye League franchise in this city today when it was announced the Peoria Railway company had disposed of the ball park property to a manufacturing concern for a price reported to be \$125,000. Immediate possession will be granted but the new owners have assured the baseball officials they may use the plant as a baseball park during the first half of the 1920 season.

Plans for a city owned stadium which may be used as a home for professional baseball, will be brought to the attention of the voters at an early election, President Jack Ryan of the Peoria Three Eye League club announced this afternoon.

Heart Disease.

I hear of a man who fussed 30 years about having heart disease. Lately he said: "After all, I'll be cursed if I don't believe I will finally die of something else."—E. W. Howe's Monthly.

TWENTY - EIGHT  
PROPOSED CHANGE  
IN ILL. BASIC LAW

By Associated Press Leased Wire

Springfield, Ill., Jan. 15.—The first proposed changes in the basic law of Illinois were submitted today by delegates to the constitutional convention. Twenty-eight proposals were introduced. The convention completed its part of the formal organization proceedings by adopting a resolution authorizing President Charles E. Woodward of Ottumwa to name necessary employees and then adjourned until next Tuesday, Jan. 20 at ten a. m.

The report of the rules committee was adopted with few changes. An amendment offered by Henry M. Dunlap, republican of Urbana, providing for the appointment of a committee of 15 members to consider proposals relating to agriculture was adopted after prolonged discussion. The rules committee had provided for a committee on industrial affairs, agriculture and labor but determined opposition was presented to mingling questions relating to agriculture and labor.
